High-tech for liquids

„Lead by innovative technology« – for our customers!
– that is the company philosophy of Erich Stallkamp ESTA GmbH.

To achieve this objective, design and production is done by qualified employees and state-of-the art technical facilities at the House of Stallkamp. More than 20 years ago, Stallkamp developed 'as first company worldwide' a liquid manure storage tank of massive stainless steel plates, which gave rise to a nearly maintenance-free and extremely durable container system. Owing to the trouble free transport of the stainless steel plates – 'no cracks, no chip-off' this container is sold and installed world-wide today. Liquid manure pumps and liquid manure agitators, of high quality and robustness belong to the natural product range just as specialist product consulting.

OUR PRODUCT RANGE:

- Stainless steel liquid manure containers
- Stainless steel biogas fermenters
- Stainless steel waste water containers
- Stainless steel activation containers
- Stainless steel sludge stacking container
- Stainless steel bottoms
- GRP covers
- Trapezoidal sheeting
- Stainless steel covers
- Tarpaulin cover
- Container insulations
- Submersible motor pumps. 4.0 kW-o 22.0 kW
- Submersible motor agitators. 4.0 kW-o 22.0 kW
- Long-wave pumps. 5.5 kW-o 22.0 kW
- Rotary pumps
- Slit mixer
- Accessories
- Special models

„Pumping - Storing - Stirring – all from one supplier“
